## TO WHOM IT MAY CONCERN

### **Rahman's Chambers, Barristers and Advocates in Bangladesh**

This letter is to confirm that during 2012 – 2018, Rahman's Chambers had represented us in a number of cases over a claim of USD \$ 2.5 million involving orders of four new shipbuilding at a shipyard in Bangladesh, which gave rise to very complex legal proceedings and international arbitration in Germany, England & Bangladesh.

In particular, the firm was successfully able to vacate an injunction imposed by a Bangladeshi court on payment under performance and refundment Guarantee while the international arbitration with London Maritime Arbitration Association was pending. This helped us in recovering the performance and refund guarantees and draw the respective funds after the London Arbitration decided in our favour.

Rahman's Chambers provided excellent team work, questions were answered promptly, we received information and explanations about the local jurisdiction which is quite difference than the German.

We were impressed with the expertise and knowledge of Mr. Mohammed Forrukh Rahman in particular with international arbitration on maritime matters.

Yours sincerely,

**Brigitte Rosenburg**
