Foreign Investment and Business set up

Bangladesh is the 2nd largest garments manufacturer of the world, hence it attracts huge foreign investments in this sector. Foreign Investors who have already invested in Bangladesh are investing in other business sectors. There are other emerging sectors where Foreign Investments is rapidly increasing e.g. construction engineering, power & energy , agriculture, IT, leather etc. To cater the need of Foreign Investors for setting up companies, branch office, liaison office and also to help them in securing employment visa (E-VISA), investor's visa (PI VISA), business visa (B-VISA), work permit etc., legal assistance is often required. Legal support is also required for setting up business in export processing zones and Economic Zones. Due to considerable political stability in recent years and initiative of government in improving power generation, introducing one stop service etc, new investment particularly in new sectors like LPG, LNG terminals, sea ports, dam & embankment, bridges are also increasing etc.

We have a dedicated and efficient Legal Service Team (<http://rahmansc.com/rahmansc-attorneys/#legal-services-team>) responsible for catering the need of the clients. We have wide range of expertise when its comes to setting up business. Our lawyers have excellent field level

expertise of working in the related office for nearly **12** years and also desk based ability to prepare all documentary works. We provide high speed and expert service in this area. We have long experience of catering need of the clients from almost all Continents hence language and local knowledge is not a barrier.
