

Real estate and Property Matters

Real estate and Property related legal issues can be divided into (a) freehold land and buildings matters, (b) leasehold land and building matters and (c) real estate development matters. Before acquisition, purchase of land or long term lease for commercial purpose clients often require comprehensive due diligence report on several complex matters involving authenticity, title, possession & history of land transfer. The same can only be provided by physical search of books and records in a number of offices, besides physical survey is often required to locate & measure the land. On completion of due diligence, if land/building/apartment is found satisfactory, client often needs assistance in preparing registration of Deed of Agreement for Sale (Baina); Sale Deed; Lease Agreement, etc. followed by mutation. Dealing with land is a very complex affair in Bangladesh as there is no option for online searching. Clients who haven't taken legal assistance at the time of acquisition or rent does later on find themselves falling into disputes involving ownership, possession, etc. Legal assistance is often required in resolving disputes in different tribunals & courts, which is a time consuming affair.
